The Bite

By Jim X Dodge

An eclectic cast of characters makes **The Bite** a story that's as deep and thoughtful as it is brutal.

The situations they get into, and occasionally out of, are as varied as the characters themselves. Once you dig your teeth into this story you won't want to let go until you've chewed all the way through to the end.

Thirteen-year-old Mitzie Collins makes a desperate gamble in order to survive in a world full of hungry undead. She uses a childhood scar to pretend to be immune to the Gee-bug so that those who are more capable will see to her continued existence. It doesn't take long for Mitzie to realize she's made a horrific mistake and people will die because of her dishonesty.
